

Convert Trial to Full Version

VERSION: 07/2023

Convert Trial to Full Version

If you've been using Threema Work's trial version and have come to the conclusion that it's the right choice for your organization, there are two options to convert the trial to a full version, depending on whether you want to continue using your existing configuration or start from scratch.

- a. If you wish to continue using Threema Work the way you've set up the trial version, please click **"Buy Now!"** next to the subscription to convert the trial to a full version.
 - If you would like to use Advanced or Essential as price plan instead of Professional, please get in touch via the [support form](#) in the management cockpit.
- b. Should you prefer to start over and set up Threema Work from scratch, please click on **"Order new subscription."**

The screenshot displays the 'Subscriptions' management interface. At the top, navigation tabs include 'Subscriptions', 'Quotations/invoices', 'Apps', and 'Settings'. The main content area shows a subscription for 'Professional' in 'Trial version' status, with a yellow 'Expires soon' warning. Key details include 'Credentials: 30' and 'Valid until: 07.07.2023'. A 'Start using Threema Work now!' button is visible. On the right side, there are buttons for 'Filter', 'Contact support', 'Enter management cockpit', 'Buy now!' (highlighted with a blue box), and 'Change subscription group'. Below the main content, a large 'Order new subscription' button is centered. The bottom section features four columns of links: 'Information' (Success stories, Webinars and events, Blog, Änderungsprotokoll), 'Support' (Resources, Documentation, Tutorials, API-Dokumentation), 'Supported platforms' (Android, iOS, Desktop, Web), and 'Review Threema Work' (App Store, Google Play, Capterra, G2).
