

## How to Configure Threema Work Using Applivery

VERSION: 01/2025

## Create the MDM Licenses in Threema Work's Management Cockpit

Go to <u>https://work.threema.ch/login</u> and log in to the management cockpit. Once logged in, select your subscription and go to "User Management."

You can save the password in plain text or as a hash. If you choose to save it as a hash, you will need to save the link that appears once you click "Save" as hashed passwords cannot be viewed anymore. If you save the password in plain text, the username and password can be viewed and copied after saving by clicking the three dots at the end of the line of a license.

Finally, select the number of licenses you would like to use to set up managed devices in Applivery, and click "Save."
